Turks Will Fight Like Wild Animals.

London, Feb. 3.—The Balkan war has been resumed. The bombardment of Adrianople began at 7 o'clock tonight and a small skirmish occurred at the Tchatalja lines. The armistice had lasted exactly two months.

Bulgaria has turned a deaf ear to the remonstrances of the powers, and unless Turkey yields to the Balkan demands the allied armies will now attempt to drive her completely out of Europe.

ROUMANIA'S DEMAND. Bulgarians Willing to Grant Them Only in Part.

Bucharest, Roumania, Feb. 3.—A diplomatic indiscretion has revealed the contents of the protocol between Roumania and Bulgaria recently signed at London. Roumania claims the frontier between Turtukai, on the Danube, 28 miles to the west of Silistria, and Baltjik, on the Black Sea, while Bulgaria offers only the frontier beginning at Silistria, and excluding that town, but including its surroundings, descending in a straight line to the east of Debritch as far as Baltjik.

Thus, while Roumania lays claim to Turtukai, Silistria, Dobritch, Kavarna and Baltjik, Bulgaria offers only Kavarna lying to the east of Baltjik near varna lying to the east of Baltjik near

PANAMA DEFENSES ARE DEFECTIVE. Possibility to Dominate Naval Base from Cuban Territory.

Washington, Feb. 3.—Army and navy officers who went to Cuba to gather data to be used in devising a plan for the fortification of the Guantanamo naval station as an outpost of the Panama canal returned today on the presidential yacht Mayflower.

The work of the board was confined to an inspection of the large tract of

land in the rear of the existing nava station, arrangements for the acquisi-tion of which are now being com-pleted. While the naval officials were endeavoring to find a solution of the problem of an adequate natural water supply for the naval station it was discovered by the strategists that through an oversight in the original plans of defense it will be possible for an army advancing on the station from the rear to occupy a position on Cuban soil by artillery that would completesoil by arthery that would completely dominate the naval base. It was decided, while engaged in the acquirement of a right of way across Cuban territory to one of the rivers in the rear of the station, to enlarge the tract to be purchased so as to include this particular hill where an enemy might operate to advantage. This joint board has been engaged in relocating the rear defenses of the station as a consequence of this enlargement.

Deals and Rumors of Deals Between the Two Parties. (Special to The Bulletin.)

Hartford, Feb. 3.—It is believed that committee hearings will be commenced this week at the state capitol and that there will be a start made in the transaction of public business, which will be in marked contrast to the three weeks previous since the opening session of the legislature. The committees are now all organized and many of them have had business referred for action and report. Just at present the session indicates that it is to be more of a political than business gathering, but this may be all changed, for it is the unexpected that sometimes happens in the legislature. There are deals and rumors of deals between both parties owing to the political status, the house being republican by a bare majority and the senate democratic, but divided.

Confirmation by Senate Will Put Him in Office, Says Light.

Hartford, Conn., Feb. 3.—That the governor has the right to nominate a successor to Highway Commissioner Macdonald, and that confirmation by the senate the senate of two counties.

This was met by a counter proposition from the democratic senators that the republicans be permitted to select these officials for one county. Neither proposition was formally accepted but the counter proposition may be acceptable to the republicans, as they have that much to gain and nothing to lose.

It is understood that if this deal goes through the republicans will select for New London or Windham county, presumably the latter. In that event it would put Lewis out of the running for county commissioner and Macdonald, and that confirmation by the senate would put the governor's nominee in office in place of Mr. Mac-donald, is the substance of an opinion which Attorney General John H. Supreme Court Fails to Find Sufficient Intent to Constitute a Monopoly-Prosecution on Another Count.

Washington, Feb. 3.—For the first time the supreme court of the United States today held in effect in the "shoe machinery trust" case that the Sherman anti-trust law does not ferbid the mere combining of non-competi-tors in an industry. Solicitor General Bullit, for the government, had con-tended that if the combination brought into one hand an "undue proportion" of the trade it was forbidden by the anti-trust law. anti-trust law.

Court's Decision Unanimous

"The disintegration almed at by the statute does not extend to reducing all manufacture to isolated units of the lowest degree," declared Justice Holmes in announcing that unanimous decision of the court, and the mere organization of the United Shoe Machinery company by the heads of several non-competing groups of shoe several non-competing groups of shoe manufacturers had not been in violation of the law.

Lawful to Make Every Part of Machine.

justice continued to say that it is as lawful for one corporation to make "every part" of a steam engine and to put the machine together as it would be for one to make the boilers and another to make the wheels. The bringing of non-competing branches of a trade into juxtaposition alone by means of a corporation, he said, in substance, did not furnish sufficient "intent" to raise the conduct to the

dignity of an attempt to monopolize.

Prosécution on Another Count. Despite today's decision, officials of Despite today's decision, officials of the department of justice declared that the United States Shoe Machinery company would be prosecuted for the alleged criminal violations of the Sherman law under the one remaining count of the indictments returned against the company, the validity of which was sustained by the lower court. That count, which was not be-fore the supreme court, charged in effore the supreme court, charged in effect that the company was monopolising the industry by combination, by tying the various shoe machines together, by the destruction of competition, and by the acquisition of competitors' business. Officials vigorously maintained that the decision did not affect the government's case on thi
